White Rot Field Tour and Research Meeting: Managing White Rot with Sclerotial Germination Stimulants and Fungicides

Tuesday, September 19, 2017

9 a.m. until noon

IREC Headquarters

Meeting Organizer: Rob Wilson, IREC Director & Farm Advisor

Meeting Presenters: Dr. Jeremiah Dung, Plant Pathologist Oregon State University; Dr. Tom Turini, Farm Advisor Fresno County; Dr. Michael Qian, Oregon State University

Agenda Items:

9 am until 10 am - Tour research plots evaluating sclerotial germination stimulants and fungicides for white control in processing onions (DPR funded research project)

10 am until 11 am - Presentations by research collaborators on the influence of fumigants and sclerotial germination stimulants on white rot sclerotia populations in the soil

11 am until noon - Discussion on commercial feasibility of treatments and future research needs
