University of California,
Cooperative Extension**

Water Measurement and Reporting Course

Senate Bill 88 requires that all water right holders who have previously diverted or intend to divert more than 10 acre-feet per year (riparian and pre-1914 claims), or are authorized to divert more than 10 acre-feet per year under a permit, license, or registration, to measure and report the water they divert. Detailed information on the regulatory requirements for measurement and reporting is available on the State Water Resources Control Board [Reporting and Measurement Regulation](#) webpage.

The legislation as written requires for diversion (or storage) greater than or equal to 100 acre feet annually that **installation and certification** of measurement methods be approved by an **Engineer/Contractor/Professional**. Diverters across CA were concerned about this requirement. California Cattlemen's Association heard from their membership and worked with Assemblyman Bigelow on a bill that would result in a self-certification option. Assembly Bill 589 was passed and became law on January 1, 2018.

This bill, until January 1, 2023, allows **any diverter**, as defined, *who has completed this instructional course on measurement devices and methods administered by the University of California Cooperative Extension*, including passage of a proficiency test to be considered a qualified individual when installing and maintaining devices or implementing methods of measurement. **The bill requires the University of California Cooperative Extension and the board to jointly develop the curriculum for the course and the proficiency test.**

At the workshop you will :

- Clarify reporting requirements for ranch
- Understand what meters are appropriate for different situations
- Learn how to determine measurement equipment accuracy
- Develop an understanding of measurement weirs
- Learn how to calculate and report volume from flow data

These trainings will move fast and will include a proficiency test. We encourage family/staff members attendance.

Feedback from participants indicates that the material presented has been useful in complying with SB88.

Please **RSVP** by July 5th at (530) 842-2711. If you are calling after business hours please leave a message with the names of the attendees and their email address. You can also rsvp via email with that information to sbclawson@ucanr.edu

DATE: Tuesday, July 10th, 2018

TIME: Noon to 3:30 p.m.

LOCATION: Best Western Miner's Inn, 122 E Miner St., Yreka, CA

Lunch sponsored by: Siskiyou County Cattlemen

Thank you!
